PROFESSIONAL SUMMARY

Full-Stack Developer with 3+ years of experience designing, developing and deploying scalable applications using MERN, .NET Core and Python microservices. Proven track record in building secure, high-availability systems, leading agile teams and implementing CI/CD pipelines. Passionate about clean architecture, performance optimization and cloud-native software delivery.

WORK EXPERIENCE

Matrix Comsec Pvt. Ltd.

Vadodara, Gujarat, India

Software Engineer

Jan 2023 - Sep 2025

- Led end-to-end development of enterprise surveillance and communication platforms using MERN, .NET Core and Python microservices.
- Engineered real-time communication pipelines reducing latency by 40% and scaling to 10× more devices.
- Developed modular Python services for alerting, monitoring and event handling to improve operational reliability.
- Integrated Keycloak-based OAuth 2.0/OIDC authentication, ensuring STQC and OWASP-compliant security across tenants.
- Automated build & deployment (WIX Installer, Roslyn, SARIF), achieving zero production security incidents.
- Promoted a clean-code culture, mentored junior developers and led architecture reviews for scalability and observability.

Freelance

Remote

Full Stack Developer

Jul 2025 - Oct 2025

- Delivered a multi-role operations dashboard for distributors and retailers using React and Material-UI.
- Built modules for shift-based ordering, real-time inventory sync and bulk operations to handle high-volume workflows.
- Optimized UI components for accessibility, responsive design and maintainability using modular architecture.

Freelance (Mitram Group)

Nadiad, Gujarat, India

Lead Organizer & Developer

Sep 2021 - Dec 2022

- Founded and led a student-run organization managing large-scale college events.
- Developed an event ticketing and QR check-in platform with UPI payment validation and real-time analytics.
- Deployed system on AWS EC2 and Amplify for high availability and horizontal scalability.
- Served 1,000+ attendees while ensuring seamless registration and live performance tracking.

PROJECT EXPERIENCE

Resume Analyzer

FastAPI, Agno, React, PostgreSQL

- Built an AI-powered resume scoring engine matching resumes to job descriptions using contextual ranking.
- Automated analysis workflows and generated ATS-optimized reports for recruiters.
- Implemented JSON export compatible with [rxresu.me](#) for seamless data integration.

Custom Identity Provider (IDP)

.NET (C#), PostgreSQL

- Developed a custom OpenID Connect & OAuth 2.0 identity provider using .NET and OpenIddict.
- Implemented PKCE flow and enabled third-party logins (Google, Microsoft, Keycloak).
- Centralized user access management across multiple applications for secure authentication.

SKILLS

Languages: JavaScript (ES6+), TypeScript, Python, C#

Frontend: React, Angular, WPF

Backend: Node.js, Express.js, FastAPI, .NET Core, Django

Databases: PostgreSQL, MongoDB, SQL Server, Redis

DevOps & Cloud: Docker, AWS, Azure, GitHub CI/CD

EDUCATION

Dharmsinh Desai University

Nadiad, Gujarat, India

Bachelor of Technology (B.Tech) - Computer Engineering

Graduation Date: May 2023
